PITTSBURGH

To Whom It May Concern,

Please allow this letter to serve as a reference for Geostar Professionals.

Children's Museum of Pittsburgh initially retained Geostar to evaluate our telecommunications provider. During the course of the evaluation, they helped determine that by utilizing a different provisioning, the museum could recognize a monthly savings. This would, however require an investment in a new phone system. Without a budget for that type of an outlay, Geostar was able to source a completely new phone system (hardware and software) from a new vendor and retain our current service provider with little increase to our monthly costs. While I was apprehensive of the new vendor, the cutover and implementation last month went smoothly. Geostar Professionals saved us time and provided a valuable service.

We will look to continue to work with Geostar in the future as opportunities arise.

Sincerely,

George Brzezinski
