

THE URSULINE
Sisters
OF YOUNGSTOWN, OHIO

To Whom It May Concern:

A former student initially recommended GeoStar to me. We consulted them as we were beginning to negotiate natural gas and electric agreements. GeoStar did the background work and was able to help us get better rates than the prices we were about to accept before their involvement.

More recently GeoStar has helped us to realize significant savings on the premiums we have to pay for workers' compensation coverage.

I recommend GeoStar without reservation. They have been a great source of information and are reliable and trustworthy partners with us.
